DRUG CO.** Incorporated.

## ENGLISH AVIATOR LANDS TROPHY

Grahame-White Flies Faster  
Than Express Train  
Goes.

### MAKES WORLD'S RECORD

One Hundred Horse-Power  
Bleriot Monoplane Goes  
61 Miles an Hour.

New York, Oct. 29.—Claude Grahame-White flying for the Royal Aero club of the United Kingdom, lifted the Gordon Bennett international speed trophy from the custody of America today, in the fastest time ever covered for the full distance of 100 kilometers, 62.14 miles, around a five-kilometer course. The average speed was a fraction better than 61 miles an hour.

The captain of the French team, Alfred LeBlanc, flying in a similar machine, a 100 horse power Bleriot monoplane, was making each lap on an average of twenty seconds faster than Grahame-White, and would have won the cup if he had not met with a disastrous accident in the last lap. He made a new world's record for five kilometers, of 2 minutes, 44.32 seconds.

LeBlanc was running at an estimated speed of eighty miles an hour when the feed pipe from his gasoline tank to the motor loosened under the incessant jarring of the engine and he suddenly found himself with nothing but momentum to carry him.

LeBlanc was helpless and panic stricken. When a puff of wind caught him he drifted sideways with tremendous speed and crashed head foremost into a telegraph pole.

The pole was fourteen inches thick but he broke it in three pieces. LeBlanc was only slightly injured.

Brookins lost control of his machine at fifty feet up and crashed into the ground. His injuries will not prove serious.

Moissant was second.

### BARDSTOWN NEXT.

D.A.R. Convention Adjourns  
at Frankfort.

Frankfort, Ky., Oct. 28.—Bardstown was selected as the place for the next meeting of the Kentucky Daughters of the American Revolution at the final session yesterday afternoon. An invitation from Louisville was received, and Frankfort also asked the Daughters to meet here again next year. On the vote Bardstown, which had also invited the convention to meet there, won out by a fair margin.

The final meeting saw about the only contest when the two committees to look after the bust of Isaac Shelby in Continental Hall, came to report. The committee, headed by Miss Lyle and Miss Laura Spurr, was recognized as the regular committee and made its report showing the amount that has been collected.

With the utmost harmony prevailing the Daughters of the American Revolution, of Kentucky, this afternoon elected the old officers for another year. All of the elections were unanimous, none of the candidates having opponents. The following are the officers honored by reelection: Mrs. Ben Johnson, Bardstown, State regent; Mrs. William H. Thompson, Lexington, secretary; Mrs. W. H. Escott, Shelbyville, treasurer; Mrs. William Warren, Danville, vice State regent.

### Fresh Oysters in Cans.

The pure food people have issued new regulations in regard to oyster shipping. Shipments are now inspected and if found polluted are destroyed. The practice of "bloating" the oysters by soaking them in brackish or weak salt water is discouraged by requiring such oysters to be labeled. Ice is not allowed to be put in contact with the oysters, which has brought the sealed pint and quart cans into use for shipping. Dealers have heretofore been charged 15 cents for "icing" by the express companies and they say dishonest messengers have often taken out oysters to put in a big lump of ice, thereby causing a shortage.

## AMUSEMENTS.

Margaret Allen and Ralph Benzie, with "LES ROMANESQUES."

IN THE day of the present suggestive farce and musical comedy, "Les Romanesques" comes like a breath of fresh, invigorating air, straight from the sylvan heart of nature. It is a comedy, free from any form of suggestiveness, pure, sweet and exhilarating. That the public are, at heart, sane and wholesome in their tastes has been shown by the distinguished success that has followed the tour of "Les Romanesques" in the United States. For several years this dainty comedy has filled the principal cities of Europe with laughter and innocent amusement. It has been acclaimed everywhere as Edmond Rostand's happiest contribution to stage literature. It is true his "Chantecler," "L'Aiglon" and "Cyrano de Bergerac" have thrilled countless audiences with their noble flights of tragic poetry, but it has remained for him to reach the hearts of the people with his human and fantastical comedy of "Les Romanesques." The first American tour of "Les Romanesques" is being made by John Nicholson and his excellent company of players, including Margaret Allen, Leta Vance, William Stein, Ralph Benzie, Hooper L. Atchley, Eugene Topping, William McCarthy and others, who will present it for the first time here on Wednesday evening, November 2.

### Tempest and Sunshine.

By those who are conversant with the history relating to the existing conditions at the time and in the place where the scenes of "Tempest and Sunshine" are laid, it is said that they are remarkably true to life. The company interpreting this splendid play is one of exceptional merit.

The management has spared no expense to provide its stars with a supporting cast as strong as the best, and the result is eminently satisfactory, both from a financial and artistic standpoint. The story is wholesome and true, and the gamut of human emotions is run during the progress of the play. Its entrances, thrills, delights and edifies. It has the fancies of fiction founded on facts, and gives even the frivolous something to think about after they leave the theatre. "Tempest and Sunshine," the dramatization of Mary J. Holmes' popular novel, is the season's success.

This standard production will be seen at Holland's Opera House on Friday night, Nov. 4.

### MISSOURI WINS

Highest Individual Place in  
Judging Contest.

At the American Royal Live Stock show held at Kansas City, October 10th to 15th, T. R. Douglass, a student of the University of Missouri made the highest score of judging all classes of live stock in competition with Iowa, Nebraska and Kansas. The students from Missouri also won the highest individual score on cattle and hogs and tied for the highest individual score on horses.

The best score made by any student of any institution was that of S. T. Simpson, of Missouri, who made a perfect score in judging cattle. This is the highest score ever made by any student in any contest in the United States. The next highest score was made by an Iowa student at Chicago in 1909.

T. R. Douglass, of Missouri, also made a perfect score on judging hogs. This is the highest score ever recorded in a hog judging contest in the United States.

Not only did the students win high places in the judging contest but the fat cattle shown by the College of Agriculture won many important prizes. At the third Live Stock Shows held at St. Joseph, Sedalia and Kansas City, the Missouri College of Agriculture won three Champion prizes, twenty-two first prizes, twelve second prizes and twelve third prizes.

All these fat cattle have been returned to Columbia and will be used in the short Winter Course in Agriculture which begins November 1, 1910.

### Portuguese Degeneracy.

Education has generally been at a low ebb in Portugal. Reliable statistics indicate that less than one-fifth of the population can read and write. The country, which has an area somewhat less than that of the State of Indiana, and a population approximately equal to that of Illinois, has always been engaged in agriculture. The people, who once were the world's greatest navigators, have lost, during the past two centuries, the energy which formerly characterized them. Their agricultural and commercial methods are very antiquated. This state of affairs, together with the political corruption and lack of education already alluded to, has resulted in appalling governmental mismanagement and chronic deficit. Not even the riches of Portugal's colonial possessions, which cover more than three quarters of a million square miles and have a population of more than nine millions, could offset the corruption at home. From "The Progress of the World," in the American Review of Reviews for

### Two Turned Down.

James M. Griggs, a former member of Co. C, 24th infantry, who was discharged in 1904 applied at the local army recruiting station Saturday for re-enlistment but as he was unable to show his decree of divorce he was not accepted. Griggs lives at Hopkinsville, Ky., and claims that since quitting the army he has been married and divorced. He went back home to get his divorce papers. George W. Cook, of Hopkinsville, who accompanied him, was turned down for underweight.—Evansville Courier.

### One Applicant Returns For Divorce Papers.

James M. Griggs, a former member of Co. C, 24th infantry, who was discharged in 1904 applied at the local army recruiting station Saturday for re-enlistment but as he was unable to show his decree of divorce he was not accepted. Griggs lives at Hopkinsville, Ky., and claims that since quitting the army he has been married and divorced. He went back home to get his divorce papers. George W. Cook, of Hopkinsville, who accompanied him, was turned down for underweight.—Evansville Courier.

### BARNES BRIEFS.

Wheat Seeding--Crop Notes and Other Matters.

Barnes, Ky., Oct. 29.—Wheat sowing is about over for this season. A larger crop was seeded this fall than usual. Some of it has come up. The fly is very plentiful in the fields and fears are entertained that they will deposit eggs in the young wheat and ruin it. Sweet potatoes are not very large, few in the hill, mostly strings, too dry for them.

Irish potatoes were never better. They are large and fine.

The revival at New Barren Springs closed Wednesday night. There were nine additions to the church, seven professions and two by letter. Rev. Moss, of Russellville, did the preaching. The pastor, Rev. J. P. Clevering, baptized the converts at the regular baptizing place in the creek, near Esq. S. H. Myers', on Seth Boyd's farm.

Will Underwood, who had a spell of typhoid fever, got out too soon, and as a consequence suffered a relapse.

The contractors are progressing very slowly with the pike on the Greenville and Johnson Mill roads.

Miss Maud West, of Hopkinsville, who was visiting her aunt, Mrs. J. B. West, our merchant here, was among those who professed at the revival meeting at Barren Springs.

A protracted meeting is expected to commence at the Christian church the second Sunday in November. Rev. T. Moore is the pastor.

The first killing frost fell on the night of October 27 and the first snow on the 28th. Snow fell at intervals throughout the day.

Some farmers have commenced gathering corn. The crop is thought to be tolerably good, considering the drought. We had no rain in this section from August 5 to October 8, a little over two months.

SENAB.

### NATIONAL CONVENTION

United Daughters of The Confederacy, Little Rock, Ark., Nov. 8-12, 1910.

The Illinois Central will sell round-trip tickets to Little Rock, Ark., at the rate of \$15.25 for the round-trip account the above occasion. Dates of sale, Nov. 5th and 6th 1910.

Final return limit, Tickets limited to reach original starting point not later than midnight of November 15th, 1910.

T. L. Morrow, Agent.

\$50,000

To loan on first-class mortgages.

## COLORED SCHOOLS MEET DELAY

County Superintendent Has  
Doubts of The Elec-  
tion Held.

### WILL GET OPINIONS.

Judge W. T. Fowler Repre-  
sents The Trustees  
In The Matter.

The trustees of the Colored Graded schools of the city have not yet taken charge of the schools. When called upon yesterday for the records and appurtenances of the schools, Miss West, County Superintendent, questioned the legality of the steps taken and said she would defer action until she obtained legal advice from Superintendent Regenstien and Attorney General Breathitt.

Judge W. T. Fowler, attorney for the trustees, is in conference with Miss West and hopes to satisfy her that the election was legally held and that the schools are now ready for self-government.

### TWO TURNED DOWN.

One Applicant Returns For Divorce Papers.

James M. Griggs, a former member of Co. C, 24th infantry, who was discharged in 1904 applied at the local army recruiting station Saturday for re-enlistment but as he was unable to show his decree of divorce he was not accepted. Griggs lives at Hopkinsville, Ky., and claims that since quitting the army he has been married and divorced. He went back home to get his divorce papers. George W. Cook, of Hopkinsville, who accompanied him, was turned down for underweight.—Evansville Courier.

### REGISTRATION TODAY.

Sick and Absent Voters Have Last Chance.

The supplemental registration of voters who were prevented from registering Oct. 6 was begun in the county clerk's office yesterday and will continue until tomorrow night. If you were sick or absent, you can get on the books for the election next Tuesday. Office open 7 a. m. to 5 p. m.

### OFFICER RESIGNS.

One of the City's Best Police men Quits Service.

Owing to his continued ill health, Officer E. T. Shauklin, who is in Clarksville, mailed his resignation to Mayor Meacham Saturday. Former Patrolman Ben Hadden has been appointed to the vacancy, which will be filled by election Friday night.

### Purely Personal

Mr. Jas. A. Young has gone to Houston, Texas, to spend some time.

Rev. C. H. H. Branch and family returned last week from Lexington and Dr. Branch filled his pulpit Sunday at the Westminster Presbyterian church.

Mr. and Mrs. A. B. Anderson, of Tate Springs, will return this week. Mr. C. H. Anderson will return with his brother to make his home at Tate Springs.

Mrs. T. E. Tate, of Louisville, is visiting her parents, Mr. and Mrs. John W. Tunks, on West Seventh Street.

Mr. and Mrs. C. F. Jarrett have returned from a visit of several weeks to California.

Mrs. Belle Willis has moved into her new cottage on Thirteenth St.

Miss Corinne Parrent has gone to Beatrice, Neb., to visit her sister, Mrs. W. B. Walter.

### Sale Of Newspaper.

The plant of the Hopkinsville Democrat, which lately suspended publication, will be sold as a whole

## New Rays of Light

One of the most wonderful electrical appliances is the X-ray which may be used both in the treatment of various diseases and in the diagnosis of many obscure conditions. With its aid the interior of the human body is no longer a sealed book it has been heretofore. Abnormal states of the bones, gall stones, stone in the bladder or in the kidneys, are shown plainly by what are known as X-ray photographs. Internal tumors, and the enlargement of the deep-seated organs, are also discovered by this means and in the diagnosis of tuberculosis of the lungs this agent has proven a most valuable aid. When applied to some of the less fatal chronic ailments of germ origin it has proven very effective as a curative agent.

Another interesting proceeding is the violet-ray treatment produced by concentrating the violet or chemical rays from an arc light with a specially prepared carbon upon any portion of the body that may be the seat of pain. Sufferers from neuralgia, sciatica, rheumatism, strains, sprains, also from those obscure exhausting pains (the origin of which can at times be accurately determined) frequently find immediate relief from a single treatment and usually with a little persistence in the use of this aid, comfortable health or perfect recovery is obtained.

The incandescence light bath, consisting of a cabinet in which the patient is bathed in the combined rays of many electric light globes, has produced really wonderful results in diabetes, sciatica, rheumatism, obesity, anaemia, and some forms of kidney and heart trouble. It has also proven valuable in chronic bronchitis, bronchial asthma and various skin diseases. As a general hygienic measure its efficiency can scarcely be overestimated.

Those who have been patients at Dr. Pierce's Invalids' Hotel, in Buffalo, N. Y., highly commend this wonderfully equipped Sanitarium, where the above mentioned electric machines, high-frequency current, and other most modern and up-to-date apparatus are used for the cure of chronic diseases. The treatment of the chronic diseases that are peculiar to women have for many years been a large factor in the cures effected at the Invalids' Hotel and Surgical Institute.

In erecting the Invalids' Hotel, Dr. R. V. Pierce's idea was to make it a general home, not a hospital. Such cases as rupture, hydrocele and varicocele are usually cured in ten days, and the patient is able to return home. The terms are moderate and the rates at the Invalids' Hotel comparatively low. In the examination and treatment of patients the practice is divided into specialties. Each member of the Faculty, although educated to practice in all departments of medicine and surgery, is here assigned to a special department only, to which he devotes his entire time, study and attention. Not only is superior skill thus attained, but also rapidly and accurately in the diagnosis of disease.

Specialists connected with this Institute at Buffalo, are enabled to determine the nature of many chronic diseases without seeing and personally examining their patients. This method of treating patients at a distance, by mail, has been so successful that there is scarcely a city or a village in the United States that is not represented by one or more cases upon the records of practice at the Invalids' Hotel and Surgical Institute. Such rare cases as cannot be treated in this way, which require surgical operations or careful after-treatment, of electrical therapeutics, receive the services of the most skillful specialists at the institution.

In medicine there has been rapid progress during recent years. Dr. Pierce has kept up with the times by continually improving his laboratory by skilled chemists, and exercising care that the ingredients entering into his well-known medicines Dr. Pierce's Favorite Prescription as well as the "Golden Medical Discovery" are extracted from the best variety of native medicinal roots. These are gathered with great care and at the proper season of the year, so that their medicinal properties may be most reliable.

These extracts are then made soluble in pure triple refined glycerine and bottled in a hygienic and scientific manner. Thus the World's Dispensary as established by Dr. Pierce is supplied with every known apparatus and means of cure, for its aim is to avoid surgical operations whenever possible.

Great care is exercised not to over-encourage those who consult the specialists of this institution that no false hopes may be raised.

Many thousands are annually treated both through correspondence and at this Institute. Every one consulting by letter or in person receives the most careful and considerate attention. All communications are treated as strictly confidential. No charge whatever is made for consultation.

Write the Invalids' Hotel and Surgical Institute, Dr. R. V. Pierce, President, at Buffalo, N. Y.

### GREATEST MOTHER.

The greatest mother in the world, perhaps, is Mrs. Jane Morris, residing in Jackson county, near the foothills of the Cumberland mountains, in Kentucky. Mrs. Morris was born and reared in the mountains, has little education and until a few years ago had never been outside of her immediate vicinity, there being at this time no railroad in Jackson county.

Mrs. Morris' claim to greatness lies in the fact that she can boast of a total of 518 descendants, nearly all of whom are living and none of whom ever has been accused of crime.

Aunt Jane, as she is called, is now very feeble, living with her son near Sand Gap, and her descendants own and occupy most of the land in Jackson county, one son, L. V. Morris, being jailer of the county. She is eighty-six years old.

She has been a widow 20 years. Of her family of 15 children 12 have married.

Her most productive child is Hannah Lakes, who has sixteen children and has more than eighty descendants, but Mrs. Sallie Sparks follows closely with fifteen children, twenty-nine grandchildren and a thirteen great-grandchildren.

Of Mrs. Morris' children Lewis and only one child and Bettie died without marrying, while Fannie and Lydia are still living but never married.

A summary of Mrs. Morris' descendants, shows 15 children, 124
